

30-Day Challenge

Are you looking for effective solutions to recruit veterans for your vacancies? The [Veteran Recruitment Center](#) has helped more than 212,000 veterans find rewarding careers, and we are thrilled to invite you to take the VR 30-Day Challenge to judge our effectiveness. In just 30 days, we will drive high-caliber veterans to your open roles and educate the military community on why your company is a great fit for veterans after service.

How will we do this in just 30-days?

- You must have at least 100 jobs and vacancies in at least 4 states
- We will send an email blast that will target specific veterans to your jobs.
- We will market veterans for a specific vacancy and send you qualified candidates to review
- We will engage in a social media campaign to showcase your company to veterans seeking employment
- We will host a standalone virtual career fair just for your company. This event can be as broad or as narrow as you like. You simply tell us what roles, locations, and skillsets you are looking for, and we will do everything else
- We will provide you a 30-day report on how successful our campaign has performed, and you can decide if our services are of value to your military recruitment efforts going forward

This is no small undertaking on our part, and we ask only those who are serious about exploring alternative ways to recruit and hire veterans to take us up on the offer.
